

Noho Taiao
 Jan 10-13th, 2017
 Rangikohu Marae, Herekino
 Draft programme

Purpose	The purpose of the marae based noho is to provide an opportunity for 20-30 Te Rarawa tai tamariki who are achieving in science, maths, and technology to get together during the summer holidays. We hope to acquaint them with a number of environmental initiatives that the iwi is promoting, lift their understanding of kaitiakitanga, and show them how they might be able to contribute to their iwi and hapu in the future. We are hoping to increase the number of our young people pursuing careers in the sciences, technology and business. The noho includes a range of outdoor activities.
Participants	The marae based noho is aimed at Te Rarawa young people between the ages of 13-17 who have an interest in science, and aim to go on to University. We want tamariki both from within the rohe and living in other areas to participate.
